Foundation of the State Arboretum

Art in Nature
And Nature in Art

June 24-26, 2019
Note longer days:
9 a.m.-3 p.m.
For rising 2nd-4th Graders

Immerse yourself in the beauty around us as we look to the natural world for inspiration. We will create large and small works of art, make music, and explore nature through stories, games, and skits. Come develop an eye for the art in nature and bring nature into your art.

Cars are full!

Green Adventures

July 8-12, 2019
9 a.m.-Noon
For rising 2nd-4th Graders

Are you ready to help protect Mother Earth? We'll discover how humans affect the environment, learn how to minimize our impact, and practice earth-friendly tips and techniques. Using the six R's—rethink, refuse, repair, reduce, reuse, and recycle—we'll become savvy stewards of the earth while having fun in nature.

EcoExplorers

July 15-19, 2019
9 a.m.-Noon
For rising 5th-8th Graders

Did you know Blandy is a field research station where scientists study nature? EcoExplorers work in pairs to ask a question about the natural world, then work with our leaders and scientists to answer their question. Participants present results to parents, Blandy staff, and other campers on the last day. Come explore our meadows, ponds, and woodlands and experience the excitement of discovery!

Our Mission

To increase understanding of the natural environment through research, education, and public outreach.

Kids need nature and nature needs kids!

Explore the natural world through observation, experimentation, and hands-on activities. Campers will work in small groups with leaders, naturalists, and Blandy's scientists.
### Camps
